

Cornerstone OnDemand SERVICES

GP Strategies™ is a global performance improvement company, specializing in learning and talent management system implementation, configuration, and support. As an organization, we have decades of experience supporting our customers' learning and talent management needs providing best in class services with a proven track record of client satisfaction.

GP Strategies offers a comprehensive suite of delivery and support services.

Whether assisting with a cloud implementation or providing value-added strategic support, GP Strategies offers a comprehensive suite of services that drives meaningful results for our clients in every phase of the system deployment life-cycle.

Migration Services

Our team has experience working with virtually every leading learning and talent management provider in the industry. We have a detailed understanding of the data models utilized by the systems that Cornerstone OnDemand (CSOD) customers may be moving from, and can act as an experienced implementation partner making the transition to CSOD as seamless as possible.

Change Management Consulting

Moving to an integrated cloud-based solution that features quarterly system updates can pose many change management challenges for large, regulated organizations.

Business Process Outsourcing

System administration and support can often prove to be the most impactful component of a deployment's success. GP Strategies has a proven track record of helping CSOD clients to maintain and administer their system in a cost-effective manner while guaranteeing best-in-class service.

Validation Services

GP Strategies has extensive LMS implementation and configuration experience, and our team routinely guides FDA regulated customers through the validation process for these systems. Using proven methodologies and best practices, our team can help lead you through the validation process in the most seamless manner possible.

Report Customization Services

Lack of access to desired reporting is one of the most commonly cited reasons for client dissatisfaction with their talent management system. GP Strategies can assist clients with their most complex reporting needs, helping to provide the information that you need regarding your learning & talent management initiatives.

GP Strategies' CSOD Practice

Our staff has years of experience supporting, and providing meaningful results for CSOD clients. Our expert team is composed of:

- Project managers
- Solutions consultants
- Software engineers
