

■ LIFESTYLE ACCESSORIES

## Personalized accessories enhance the CUSTOMER EXPERIENCE

GP Sandy, A Division of GP Strategies™ offers a wide range of lifestyle accessory options. Here are a few samples:

### Off-Road KITS

Echoing the adventurous spirit of buyers of an admired and high-end SUV brand, we engineered two fashionable kits that fit perfectly into the vehicle's rear wells. These lifestyle-themed kits contain almost everything for weekend survivalists and outdoor enthusiasts to keep them prepared for any situation.

### Adventure Kit

The Adventure Kit contains two walkie-talkies that operate within a seven-mile range, binoculars, wind-resistant lighter, waterproof flashlight, compass and Staun tire deflators.

### Emergency/Tool Kit

The Emergency/Tool Kit contains a first aid kit, Maglite flashlight, heavy-duty tire pressure gauge and Leatherman Wave multi-tool.

### Cargo Organizer

Whether grocery shopping or heading to the ballgame, this cargo organizer is sure to keep everything in the right place. Constructed of durable 1200D polyester with reinforced walls for stability, this organizer can really stand up to the test. And with ABS plastic sliders on the bottom, you can carry loads up to 200 lbs. The organizer also includes three interior compartments with removable separators for additional utility. Additional end pockets and mesh side compartments provide convenient storage.

### Vehicle Detailing Kit

We created an innovative cleaning accessory that owners can use to keep their vehicle clean and ready for the next road trip. We started with a 3-1/2 gallon wash bucket fitted with an air-compressed lid. A patented skirt design holds cleaning supplies and glazes. Owners can use the bucket as a seat to keep them comfortable during low-to-the-ground detailing tasks. The deep-pocketed apron keeps supplies within easy reach. The rugged design and prominent logo reinforce your brand, while our intelligent design helps reinforce pride in ownership.
