

Leading People+ is a leadership development program that equips frontline managers with skills and strategies to engage and unleash the knowledge, expertise, independence, and performance of their direct reports.

It is based on GP Strategies®' research and experience, and is supported by its proven success with hundreds of leading companies and the development of thousands of leaders worldwide.

Since the content is designed in a modular fashion, it can easily be branded and customized as well as delivered in different modalities over various lengths of time. This provides the flexibility to deliver a customized blended learning journey for a minimal investment. And, the continuous learning approach with multiple touch points will increase your return on investment by increasing knowledge/behavior retention. Customized learning journeys can be supplemented with additional content, such as Emotional Intelligence, Handling Conflict, and Inclusive Leadership.
